FABRIC TEST DRIVE · FABRIC JOURNEY · STEP 3 OF 4

Try Microsoft Fabric. **Before you commit.**

Try out the functions of Microsoft Fabric and use a test use case to find out how you benefit from the platform. Our experts show the most important functions, you try them out yourself, and together we evaluate the result.

60 days
Fabric trial licence, free

AT A GLANCE

The Fabric Test Drive by Obungi is an accompanied trial of Microsoft Fabric before the first project. It is based on the Fabric trial licence, which is free for 60 days. Obungi experts demonstrate the most important functions, the company tests on its own – from the integration of source systems to Warehouse, Lakehouse, dataflows and data transformations through to visualisation and OneLake – and finally evaluates a test use case together with certified experts.

SERVICE	Fabric Test Drive
PROVIDER	Obungi GmbH, Microsoft Fabric Featured Partner
FORMAT	Accompanied trial in your Fabric trial environment
DURATION	Within the 60 days of the Fabric trial
FOR WHOM	Companies that want to experience Fabric hands-on before their first project
RESULT	Your own experience with Fabric, An evaluated test use case, Clarity about the benefit
PART OF	Microsoft Fabric Journey

STARTING POINT

When this step **is the right one.**

Would you like to try out the advantages of Fabric together with us before your first project?

01

The decision is still open

Slides only go so far. You want to see how Fabric deals with your requirements.

02

The team should experience Fabric

The people who will work with it later should have had their hands on the platform themselves.

03

Starting without risk

With the free trial licence you test before licence or project costs arise.

SCOPE

What **is included.**

- Fabric trial licence, free for 60 days
- Demonstration of the most important functions by our experts
- You try out the functions yourself
- Evaluation and review of a test use case together with our certified experts

What you try out yourself

- Integration of source systems
- Warehouse
- Lakehouse
- Dataflows
- Data transformations
- Visualisation
- OneLake

Fabric Featured Partner

Obungi is a Microsoft Fabric Featured Partner.

PROCESS

Three steps **to the result.**

01

Setting up the trial & demo

Start

- Activating the Fabric trial licence
- Demonstration of the most important functions

02

Trying it out yourself

During the trial

- Integrating source systems
- Using Warehouse, Lakehouse and OneLake
- Transforming and visualising data

03

Evaluating the test use case

Conclusion

- Joint review of the result
- Recommendation for the next step

Request the test drive →

RESULT

What you **have at the end.**

Your own experience with Fabric

Your team has seen and used the most important functions.

An evaluated test use case

Reviewed and assessed together with our certified experts.

Clarity about the benefit

You know how you benefit from the platform – and whether the next step is worthwhile.

MICROSOFT FABRIC JOURNEY

One step on **your way to Fabric.**

The steps build on each other but can also be booked individually. You start where you currently are.

STEP 1

Intro call

Free of charge

STEP 2

Fabric Solution Assessment

Three workshops to your Fabric data strategy: target architecture, cost estimate and roadmap.

STEP 3 YOU ARE HERE

Fabric Test Drive

Try Fabric for 60 days with a trial licence – accompanied by our experts on a test use case.

STEP 4

Fabric Project

Your first Fabric use case, implemented for production – with security concept, testing and documentation.

FAQ

Frequently asked questions about the **Fabric Test Drive**

What is the Fabric Test Drive?

An accompanied trial of Microsoft Fabric before the first project: Obungi experts show the most important functions, you test on your own and evaluate a test use case together with us.

What does the Fabric licence for the test drive cost?

Nothing: the test drive uses the Fabric trial licence, which is free for 60 days.

Which functions can we try out?

For example the integration of source systems, Warehouse, Lakehouse, dataflows, data transformations, visualisation and OneLake.

What happens after the test drive?

In the Fabric Project our experts implement the first use case with you in such a way that you can use it productively.

GET STARTED

Request the **Fabric Test Drive.**

Tell us briefly where you stand. We will get back to you with a suggested date – if you wish, for the free intro call first.
